

**A BIBLIOGRAPHY OF
PUBLICATIONS IN
THE FIELD OF SALINE
AND SODIC SOILS**

(Through 1964)

Revised July 1966 ARS 41-80

Agricultural Research Service

UNITED STATES DEPARTMENT OF AGRICULTURE

PREFACE

Two useful aids in literature review are subject matter review articles and bibliographies. Unfortunately, there are few of either of these aids in the field of soil science.

This bibliography resulted from a systematic search and review of the literature concerning saline and sodic soils. Early in the search it was learned that grouping published papers under various headings was advantageous. This grouping necessitated listing some of the references more than once.

This bibliography does not include all papers published on the subject of saline and sodic soils. Certainly, the author's search of the literature has not guided him to all publications. Many foreign papers are not included, since access to foreign literature was limited. However, the references given in this bibliography should guide interested research scientists to most published information on saline and sodic soils up through 1964.

Prepared in

Soil and Water Conservation Research Division

CONTENTS

	<u>Page</u>
1. The occurrence, development, and properties of salt-affected soils -----	1
1.1 General references -----	1
1.2 Soil salinization and related soil properties --	5
1.3 Sodic soil formation and related soil properties -----	8
2. The effects of salts and sodium on plants -----	10
2.1 Effects of salinity on plants -----	10
2.2 Effects of sodic soil on plants -----	18
2.3 Specific ion toxicity -----	21
2.31 Chloride -----	21
2.32 Sodium -----	23
2.33 Boron -----	24
2.34 Sulfate -----	25
3. Crop tolerance to salts and to sodic soils -----	26
3.1 General references on salt tolerance -----	26
3.11 Salt tolerance ratings -----	33
3.2 General references on sodic tolerance -----	35
3.21 Sodic tolerance ratings -----	36
3.3 Crop tolerance to saline-sodic soils -----	36
3.4 Crop tolerance to boron -----	37
4. Evaluating soils for crop production with reference to salinity and sodium -----	38
4.1 References on general criteria -----	38
4.2 Chemical measurements -----	38
4.3 Physical measurements -----	40
5. Management practices for saline and sodic soils ---	42
5.1 Management practices for saline soils -----	42
5.2 Management practices for sodic soils -----	43
6. Reclamation of salt-affected soils -----	44
6.1 Reclamation of saline soils -----	44
6.2 Reclamation of sodic soils -----	47
6.3 Reclamation of saline-sodic soils -----	49
6.4 Reclamation of boron affected soils -----	49

CONTENTS (cont'd.)

	<u>Page</u>
7. Water quality -----	50
7.1 Quality of water for irrigation -----	50
7.2 Quality of water for leaching -----	52
7.3 Effects of irrigation water quality on soil properties and crop production -----	53
8. Books covering most subject matter in the field of saline and sodic soils -----	56
8.1 Texts -----	56
8.2 Handbooks -----	57

A BIBLIOGRAPHY OF PUBLICATIONS IN THE FIELD OF

SALINE AND SODIC SOILS

(Through 1964)

by

David L. Carter^{1/}

1. The occurrence, development, and properties of salt-affected soils.
